

Sharefile Founder Jesse Lipson to Headline December's C-Suite Perspectives

December 6, 2018

The final C-Suite Perspectives event of the year is almost here.

The month's program, hosted by the Greater Raleigh Chamber of Commerce, features valuable insight from Jesse Lipson. He is a self-taught software developer and became a full-time entrepreneur at the age of 23.

Lipson will share the lessons that he learned on his entrepreneurial journey on Friday, December 14 at Umstead Hotel and Spa in Cary. The event is for Chamber members only and you must RSVP by December 7.

More about Lipson:

In 2005, Lipson launched Sharefile, a file transfer service built for business owners who need secure, reliable, and easy tools for sharing data. He grew the company from zero to four million users in just six years. Lipson sold Sharefile to Citrix in 2011. Forbes ranked Citrix Systems #80 on their Just Companies list, with a market cap of \$13 billion in December 2017.

Most recently, Lipson started a software company called Real Magic. Real Magic launched Levitate, which helps small businesses grow and manage their professional relationships to help drive more referral and word-of-mouth business.

Lipson also co-founded HQ Communities, a co-working space with more than 150 member companies.

Ward and Smith is a proud sponsor of the Chamber's C-Suite Perspectives Series.
