
Young Moore and Henderson Donates Computers to Eight Charitable Organizations in Triangle

NEWS | NOVEMBER 13, 2014

Young Moore and Henderson recently donated over seventy desktop computers and laptops to eight charitable organizations in the Triangle area. The recipient organizations provide a range of services including educating children in Honduras, ensuring academic success of disadvantaged youth, and educating students with intellectual and developmental disabilities. Additionally, many of the computers will be provided to students with no computer in their home to help bridge the digital divide. We are excited that our donation will benefit so many in our community.
