

## Firm History

### Our Solution-Based Roots:

Carruthers & Roth was founded in 1937 by attorneys Herbert S. Falk, Joseph Carruthers, Jr. and Charles Roth. Together, our three founders sought to bring common-sense, business-like solutions to the needs of our clients. That tradition continues today.

As we have grown through the decades, but we have continued to build on that solid foundation. While other firms sought to establish satellite locations in remote cities, we instead invested to expand our Greensboro office to nearly three times its original size – building our local bench strength and significantly upgrading our technology. As a result, we have the centralized resources we need to work collaboratively and to develop solutions that serve each client's unique needs.

Our highly regarded team of legal professionals now provides comprehensive legal representation, counsel and planning services to a broad range of clients – from individuals and entrepreneurs to local, regional and national businesses.
