Intellectual Property

Our Carruthers & Roth team is experienced in a wide range of intellectual property issues important to innovators, entrepreneurs and businesses of all sizes – including the registration, acquisition, sale, licensing and protection of trademarks, copyrights and other intellectual property. We provide practical counsel on the protection of trade secrets and proprietary information, represent clients before the United States Patent and Trademark Office, and litigate intellectual property disputes before federal and state courts. In those instances where a settlement would be advantageous to our client, we actively pursue a quick and effective resolution outside the courtroom.
