

On July 30, marking a significant milestone in our expansion project, we “Topped Out” The Michael Kors Building at our SoHo home, by installing the building’s highest and final beam!

God’s Love staff joined volunteers, donors, architects from GKV, the construction team JRM and other supporters for the ceremony. Attendees signed the beam which we watched rise high above Spring Street as it was installed.

We’re so excited for what’s to come!

Find out more about the building on social using #TheMichaelKorsBuilding. [See the video of the ceremony.](#) [View our Facebook album.](#)
