

We were so happy to be joined this week by Sera Morgan, HRSA Project Officer for the Ryan White HIV/AIDS Program's New York City EMA, and our colleagues from the NYC Department of Health and Mental Hygiene and Public Health Solutions. The Ryan White HIV/AIDS Program generously funds many of our services at Gods Love We Deliver for our clients living with HIV/AIDS. We were able to take Sera on a tour of our new building to show her our mission in action, and got to sit down and discuss key programmatic and policy issues facing our clients living with HIV/AIDS. We emphasized the importance of our program in the HIV continuum of care, as it helps our clients stay healthy, in treatment and adherent to their medications. It was a truly inspiring visit.
