# **Nutrition During and After Treatment for Triple Negative Breast Cancer**

Women from around the country with early stage triple negative breast cancer (TNBC) can join Nancy Touhill and God's Love RDN Austin Park via video or phone for discussions of "Nutrition During and After Treatment." The entire program is 60 minutes in length during which Austin will share dietary recommendations for breast cancer patients, and talk about nutrition tips for during and after breast cancer treatment.

This online program is hosted by SHARE Cancer Support.
