

Looking to bring on meal delivery to support Value Based Payment (VBP) or any of your insurance products—Medicaid Managed Care, Managed Long Term Care, Medicare Advantage, or CFCO? Hoping to engage a provider who can help increase member satisfaction? God's Love, a New York State Department of Health recognized Tier 1 Provider, can help you address the social determinants of health affecting your members, including food insecurity and malnutrition, with a specific, affordable intervention.

Research shows that adding medically tailored nutrition to a care plan dramatically reduces health care costs; in one rigorous study, medically tailored meals reduced costs by an average of \$12,000 per member per month. *

Nutritional intervention can support or address:

- Recent hospital discharge without supports at home
- Weight loss
- Cognitive impairment or serious mental illness
- Medically at risk
- General fatigue
- Difficulty chewing and/or swallowing
- Difficulty walking or getting around
- Difficulty shopping or cooking
