Healthcare Partnerships

God’s Love We Deliver serves in the space between hunger and health to positively impact health outcomes. As we often do not fit the funding criteria for local, state, and federal grant programs, we have created innovative pathways to partner with Managed Care Organizations, Hospitals & Health Systems, and all healthcare-adjacent space as a critical part of a patient’s plan of care. Our partners have benefitted from lower healthcare costs, improved their members overall quality of life with a trusted community partner, and seamlessly integrated God’s Love into their daily processes without any significant administrative burden.

Pathways to Partnership

Managed Long-Term Care

We enhance the delivery of long-term services to people who are chronically ill or disabled and who wish to stay in their homes and communities.
Managed Medicaid

God’s Love We Deliver has several pathways to partnership through NYS Medicaid to address the social drivers of health, including food insecurity and malnutrition.
Medicare Advantage

Medically Tailored Meals are a benefit provided for a specified duration of time immediately following surgery, an inpatient hospital stay, or to facilitate lifestyle modifications for individuals coping with chronic illnesses.

Hospitals & Healthcare Delivery Systems

Lowering costs, improving overall health, and providing top-quality care are paramount goals for any healthcare organization. We work in partnership with health systems, hospitals, provider-based organizations, and anywhere a person receives care to help achieve these goals, including CMS STAR Ratings, HEDIS & CAHPS Measures, and NCOA Scores.

Partnering in medically tailored meals results in lower cost of care, reduce hospital admissions, and prevent further healthcare complications

Explore Medicaid
In Lieu of Service (ILS)

Medicaid Managed Care recipients are provided with alternative services that are medically appropriate and cost-effective substitutes for existing covered services.

Value-Based Payment (VBP)

A program to focus on lowering the cost of care and improving the overall health of its members, while providing monetary incentives to health care providers.
Medicaid Waiver 1115

A Managed Care program which provides comprehensive and coordinated health care to Medicaid recipients, thereby improving their overall health coverage.

Partner Testimonials

With more than 20 years of experience partnering with healthcare, here's what some of our partners’ patients and members say about our medically tailored meal program.

“I’d like to send a great big THANK YOU to ALL for the wonderful meals that were delivered for myself and my husband for Thanksgiving. It was delicious and we enjoyed it very much. The gift bag was an absolute pleasant surprise. The young ladies that came that day were lovely, and those that deliver my meals regularly are always with a smile on their face. My husband and I would like to thank you all for what you do, and what you have done for me. It matters a lot and has made a difference.”

Managed Medicaid

“I would like to say thank you so very much to you and that people in charge of this program, chefs, nutritionist, the packing, the delivery. I want you know how grateful and how much I appreciated that healthy food that you send every week for four weeks, it really help me with my recuperation, it was the only food that I had because I could not cook at that time. Thank you very much I appreciate it.”

Medicare Advantage

“New client called to thanks us for the meals and stated it has been a long time since his fridge has been this full.”

Veterans Program
“Client is very thankful for our meals. He feels they have made him healthier and he appreciates the low sodium nature of the meals and says they have helped reduce his blood pressure.”

Managed Long-Term Care

“Client stopped meals some months ago because she no longer felt she needed the services. But she wants to restart. Says, “I appreciate everything you people have done for me.” When she started our meals, her cholesterol went down, her salt intake, and she lost 11 pounds. She felt so much better. When she stopped our meals, she felt her health going backwards. I said I’d pass along the compliments, she said they’re not just compliments, it’s an award for her. These meals aren’t just to eat, it’s for health. Even though she would heat them without salt or butter, they still tasted good and healthy.”

Managed Long-Term Care

“Client and niece called to state that they enjoy God’s Love We Deliver meals because they are delicious, fresh, and healthy. Client stated that they are receiving supplemental meals from a different agency and the meals never compare to God’s Love. She stated that she has many food allergies and God’s Love provides outstanding service and assistance in terms on menu modifications.”

Managed Long-Term Care

“Client is grateful for our service. She said we give wonderful service and she is grateful that her insurance renewed her contract so that she can stay on program.”

Managed Medicaid
“Client loves the food, that it’s medically tailored for his high blood pressure and diabetes. He says thank God he gets it. Being a diabetic, you saved my life.”

Managed Medicaid

“Caregiver is seeking a different insurance avenue to continue our meals for client because they’ve been wonderful, especially because of the low sodium. It’s been a big concern for them because client had previously too high sodium, leading to high blood pressure, then a stroke that ended up in paralysis. It’s not just convenient to her as a caregiver, but it's nutritious, it has everything, the veggies, it's a perfect meal. especially compared to sodium-heavy prepared meals she would buy elsewhere... God's love was a pleasant surprise!”
