# Hoffman Presents on Best Practices in Accident Investigation

NEWS | JUNE 24, 2015

Dana H. Hoffman presented on best practices for accident investigation at a member outreach program for representatives of North Carolina's rural electric cooperatives. She focused on practical application of accident investigation techniques, including preserving and protecting data and assessment of subsequent remedial measures. The program was held on June 16 in Wilmington. Dana has 17 years of experience representing and counseling cooperatives and electrical contractors throughout North Carolina in matters relating to vehicular accidents, electrical contact, and other catastrophic events.
