*Please join us on September 27, 2017 for a complimentary dinner and seminar.*

## Agenda:

### THE IMPACT OF TAX REFORM ON YOU

Lee Roberts, SharpVue Capital

For those of you who follow developments in Washington, you know it's hard to say anything with certainty about tax legislation. Except perhaps this: We are likely to see more action on, debate over, and interest in tax reform in 2017 than we have seen since the Tax Reform Act of 1986. The Trump Administration and Congress have made reforming the tax code—perhaps radically so—a major priority for the coming year. Come hear how these changes may have far reaching implications.

### FINANCIAL, WEALTH AND ESTATE PLANNING INSIGHTS FOR HEALTH CARE PROFESSIONALS

Cameron Rosenow, SharpVue Capital

Chad McCullen, Young Moore

Estate, wealth and financial planning should not be managed to the exclusion of one another. This presentation will explore an interdisciplinary approach to estate, wealth and financial planning and specific insights into common issues facing health care providers.
