

# Health Care

## PRACTICE AREA

### Overview

Young Moore's reputation in Health Care Law stems from a practice dedicated to the distinct nature and needs of the health care industry.

*\*Please visit our COVID-19 Resource Center for more information related to the Coronavirus outbreak.\**

Our Health Care Industry Team represents virtually every type of entity operating in or related to the health care industry. These entities include: academic medical centers (AMCs), community hospitals, ambulatory surgical centers (ASCs), assisted living facilities (ALFs), skilled nursing facilities (SNFs), dentists and dental practices, durable medical equipment (DME) suppliers, home health agencies, hospices, information technology companies, insurance companies, pharmacies, physicians and physician practices, rehabilitation services, and specialty hospitals. In addition, our attorneys offer our clients the advantages of a multidisciplinary business law firm, with counsel available in the areas of corporate law, regulatory and administrative law, employment, employee benefits, estate planning, wealth preservation, and real estate.

Young Moore attorneys regularly represent health care providers, including hospitals, long term care facilities, home health agencies, specialty hospitals, physicians, and physician practices, as well as individual officers and employees of such companies, in a variety of matters, including defending
