
Medical Risk Management

SERVICE | OCTOBER 18, 2017

We will help you identify and manage medical risks.

We are available to consult with entities ranging from individual healthcare providers, physician practice groups, ambulatory surgical centers, long-term care facilities and hospitals of all sizes to assist in managing medical risks. Our experienced health care team stays current on trends in the health care industry as well as trends in litigation regarding patient complaints and litigation. We work with our clients to identify and manage medical risks. Our attorneys appreciate the opportunity to speak with small and large groups to assist our clients in their efforts to educate their health care providers about managing medical risks. Our team is also available to assist regarding the legal aspects surrounding the establishment of medical review committees and the peer review process.
